

# 5 INNOVATIVE ACTIONS!

## SLICE as you like

Easydea: perfect to slice ANY type of food, salami, sausages, cured meat, fish, vegetables, fruits ... with electronic thickness adjustment.

## WEIGH what you need

Thanks to a built-in scale you can preset the weight you need and Easydea will cut exactly that.

## COUNTS for you

Easydea can count the number of slices you need. It even calculates the calories of the sliced product.

## State-of-the-art DISH PREPARATION

While Easydea is cutting, the dish rotates. The slices fall well separated from each other, creating a fresh and imaginative mix of products.

## Vacuum PRESERVATION function

With a built-in powerful vacuum pump Easydea can be used as a Vacuum machine using rigid containers or classic standard bags.

## Helps with DATA MANAGEMENT

Easydea can be connected to a PC allowing you to extract information and **statistical data** to optimize the management of costs and revenues! It is also equipped with a remote **diagnostic** and a **remote programming** function to eliminate or drastically reduce the need for technical maintenance.

# 5 UNIQUE ADVANTAGES!

## EASY and automatic

It is simple to use and it allows you to quickly prepare dishes and sandwiches, producing high volumes in no time at all!

## Extremely SAFE

Electronic and mechanical safety mechanism to eliminate the usual risks of accidents. Simple and very safe built-in sharpener works while the blade remains protected!

## All-round CONVENIENCE

High productivity, very low operating costs! Easydea is an ally for savings in business use. With an incredible reduction of waste and an increase in profits.

## VERSATILITY and accessories

With the conveyor belt, the slices are always on hand to prepare dishes and sandwiches. Special systems are also available for the vacuum preservation.

## CLEANING and hygiene

simple, safe, fast cleaning: 50% less cleaning time than traditional slicers and solutions! Hygiene guaranteed: the product can be placed on the plate without being touched.
